## GACC – CHINA CUSTOMS ANNOUNCE ADJUSTMENT TO CHINA CUSTOMS ADVANCE MANIFEST REGULATION, EFFECTIVE 1<sup>ST</sup> JUNE 2018

May 18, 2018

### DEAR VALUED CUSTOMER,

The General Administration of Customs China (GACC) will soon implement Announcement No.56. [2017] to adjust China Customs Advance Manifest (CCAM) rule, and we wish to keep you updated of the relevant requirements.

The adjustments prescribed by this regulation are intended to boost ongoing customs integration reforms, standardize data declaration requirements, and strengthen the risk management process for inbound / outbound cargo.

In compliance with regulation, complete and accurate cargo information must be provided to China Customs **at least 24 hours prior to cargo loading**. These requirements are applicable to all import, export, and transshipment cargo via all ports in China, and will be effective from 1<sup>st</sup> June 2018. It is also important to note that non-compliance may likely impact cargo loading operations.

- **Import Cargo to China – Shippers are thus required to provide complete and accurate cargo information in their Shipping Instructions to APL Logistics**. These information will be then directed to the carriers.
- **Export Cargo from China – Shipper shall provide information prior to the declaration of export clearance**. These information will be then directed to the vessel agents.
- For details on the mandatory information, please refer to Appendix A below.
- For more information on cargo descriptions, please refer to Appendix B below for guide from China Customs.
- The full press release from GACC can be found [here](#).

We thank you for your continued support, and will endeavor to keep you informed of any further updates in a timely manner. In the meantime, should you have any further questions or concerns, please do not hesitate to contact your APL Logistics representative.

Sincerely,  
APL Logistics
