# REGIONAL NETWORK UPDATE: GREATER ASIA

May 12, 2020,

#### North Asia

There are no updates from North Asia today.

## Southeast Asia

- Philippines: On May 12 the President announced that some high risk areas will remain under the current strict enhanced community quarantine beyond May 15 (when the measures are scheduled to gradually ease). Article <a href="here">here</a>. Our current operations remain unchanged and we will continue to monitor the situation.
- Malaysia: The current movement control order has been extended through June 9. Article <u>here</u>.
  Our current operations remain unchanged.

## South Asia

• India: All domestic CLS sites are now operating with skeletal staff and will be scaling back up to full operations by end of June barring unforeseen circumstances.

Please refer to the COVID-19 Operational Status Matrix here for most recent detailed regional updates.

Global cases can be tracked by accessing this live map created by Johns Hopkins University.
