

# CUSTOMER ADVISORY

## TYPHOON MAYSACK – CHINA

September 1, 2020

Dear Valued Customer,

As reported by The National Meteorological Center of China, Typhoon Maysack has moved towards Southeast of the East China Sea with increased intensity. Please be prepared to experience some delays in the shipment and vessels at affected ports.

As of Date of Advisory, some vessels have experienced delayed port CY opening at Ningbo Meishan/Phase III/Phase II terminals. We are also working with carriers on extension application and will work with impacted customers on necessary mitigation.

Currently, there is no impact on Ningbo and Shanghai general port operations. We will continue to monitor the situation and send additional updates as needed. If you have any further questions or concerns, please contact your APL Logistics Account Manager or local APL Logistics office.

Sincerely,  
APL Logistics
