

# CUSTOMER ADVISORY

## TERMINALS IMPACTED DUE TO COLD STORM – NINGBO AND QINGDAO

December 30, 2020

Dear Valued Customer,

The weather forecast reported that the cold storm has hit East & North of China. Vessel schedule and terminal operations will be impacted due to the gale.

Terminal at Ningbo is closed while Qingdao terminal remains partially operational. Please expect a delay in empty container pick-up and container delivery. Operations at Shanghai office and warehouse remain unchanged.

We will monitor the vessel schedule and terminals' reopening closely, and inform customers if there is any impact. If you have any further questions or concerns, please contact your APL Logistics Account Manager or local APL Logistics office.

Sincerely,  
APL Logistics
