

REGIONAL NETWORK UPDATE COVID-19

REGIONAL NETWORK UPDATE: TIANJIN, CHINA

January 26, 2021

Below updates:

- Due to increasing number of COVID-19 cases, the local government has instructed to seal off the Shijiazhuang, Xingtai and Langfang areas on January 12, 2021.
- As of date of Advisory, Langfang has returned to normalcy.
- All personnel and vehicles are not allowed to enter or exit Shijiazhuang or Xingtai. Transportation is impacted and most of the factories in the affected areas remain closed.
- We foresee that factories in these areas will face order delays as delivery of cargo from factory to warehouse is affected. No trucks are allowed into/out of the cities.

APLL Tianjin office and Xingang port are operating as per normal.

We will continue to monitor the situation and send additional updates as needed. If you have any further questions or concerns, please contact your APL Logistics Account Manager or local APL Logistics office.

Please refer to the [COVID-19 Operational Status Matrix here](#) for most recent detailed regional updates.

Global cases can be tracked [by accessing this live map created by Johns Hopkins University](#).
