

CHINA – NINGBO BEILUN SITUATION

January 4, 2022

Dear Valued Customer,

There are increasing new COVID-19 positive cases reported in the Beilun District, Ningbo, and a Level I emergency response has been activated since January 1. More updates are as follows:

- Since January 2, dedicated inbound/outbound trucking routes have been set up to minimize congestion.
- As of January 4, the Ningbo-Zhoushan Port and most container depots located within the Beilun District is in operation.
- Truckers from the areas or cities outside of Beilun may be required to quarantine for more than 14 days after entering Beilun. Therefore, trucking capacity may be impacted.
- Other impacts include certain factories in the restricted area of Beilun would not be able to fulfil delivery throughout this period.

Please refer to our **Operational Status Matrix** [here](#) (*restricted view*) for most recent detailed updates. You may like to bookmark the link to periodically check for updates with regards to our operations' statuses.

We are monitoring the situation closely, and our operation team is working with the impacted customers until the situation is relieved.

If you have any further questions or concerns, please contact your APL Logistics Account Manager or the local APL Logistics office.

Sincerely,
APL Logistics
