

## Update – Houthi rebels attack ships in Red Sea

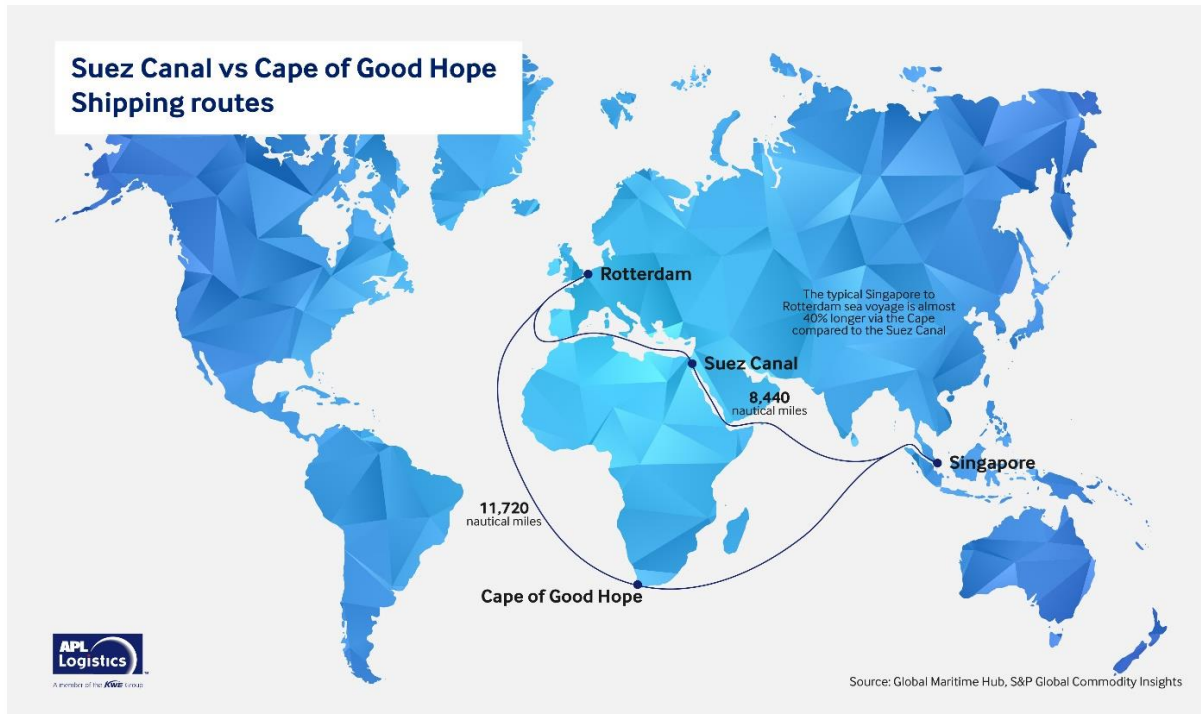

December 22, 2023

Dear Valued Customer,

To protect the crew and the vessels, major carriers have now decided to sail via Cape of Good Hope instead of transiting through the Suez Canal. This will result in longer transit times and additional delays.

For the latest shipment information, please contact your APL Logistics representative and/or track your shipments - including vessel position – through APL Logistics' LSS+ Visibility & Reporting platform.

### Suez Canal vs Cape of Good Hope shipping routes

We will keep you informed about further developments.

Sincerely,  
APL Logistics
