# AutoDirect™

**Safe, timely, green vehicle shipping worldwide**

AutoDirect™ is APL Logistics' solution for transporting finished vehicles in containers. It combines returnable racking systems with global freight capabilities, ensuring safe, sustainable, and timely deliveries.

By allowing multiple vehicles to be securely loaded into a single container, AutoDirect™ reduces handling, minimizes damage, and optimizes space utilization.

Whether shipping domestically or internationally, AutoDirect™ offers flexibility to ship according to demand, leveraging various ports and multiple weekly sailings for faster market responses.

**THE RO-RO ALTERNATIVE**

## KEY BENEFITS

### Optimized Container Space

- Load more vehicles per container to reduce the cost per unit.

### Enhanced Security

- Minimize handling and exposure leading to fewer damages.

### Expanded Port Network

- Leverage multiple FCL carriers, routes, and sailings to ship on time.

### Sustainable Operations

- Decrease carbon emissions and reduce material waste.

### Demand-Driven Shipping

- Deliver less but more often aligning with market needs.

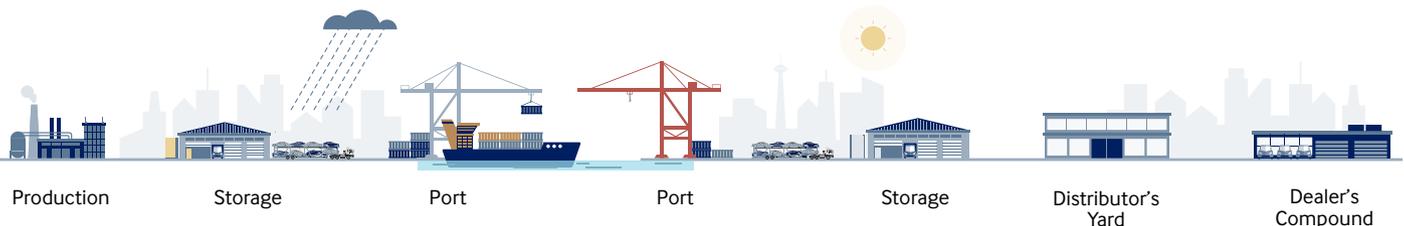

### Real-Time Tracking

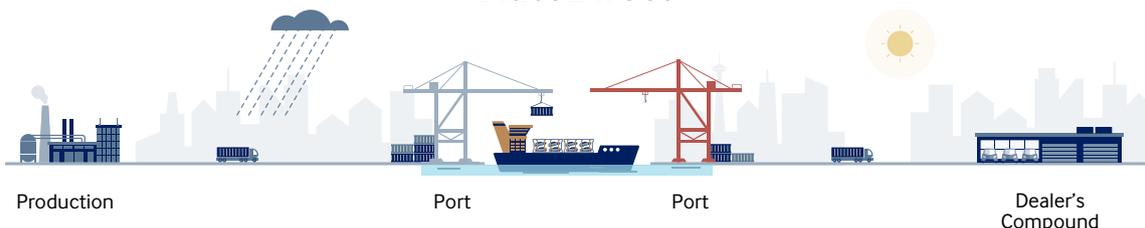

- Monitor your shipment every step of the way with live updates.

## SHIPPING MODES COMPARISON

### Ro-Ro
